

# PTFE Envelope Gasket

Code: KXT1320

## Description

PTFE Envelope Gasket with core material of flexible materials (Asbestos; non-asbestos; rubber, etc.), which is wrapped by PTFE.

Item no.: KXT1320

## PTFE Envelope Gasket

Item no.: KXT1320

- \* PTFE Envelope, flexible materials insert
- \* Wide working temperature range
- \* Excellent weathering and aging characteristics

## Typical Applications

It is mainly used as a gasket for tower, groove and all kinds of equipments of strong acid, halogen corrosive liquids or anti-contaminated food flanges. It is widely used in the chemical, petrochemical, pharmaceutical and food industries.

## Styles of PTFE Envelope

KXT 1320Y: This is one of the most frequently used and economic types. It applies to use in every kind of occasion with lower temperature and lower pressure. Insert materials can be used by customers request.

KXT 1320UR: It applies to with large dimension gaskets which are used in the chemicals with poison.

KXT 1320UE: This type is used with the thick material embedded, it can reduce the inner flanges residue.

# PTFE Envelope Gasket

Code: KXT1320

## Specification

Temperature: -100~260oC

Max. Pressure: 50bar

Compressibility:  $\geq 20\%$

Recovery:  $\geq 30\%$

Stress release:  $\leq 45\%$

Leakage rate:  $\leq 1 \times 10^{-3} \text{ cm}^3/\text{s}$
